

Honeywell

1. Create a Honeywell account.

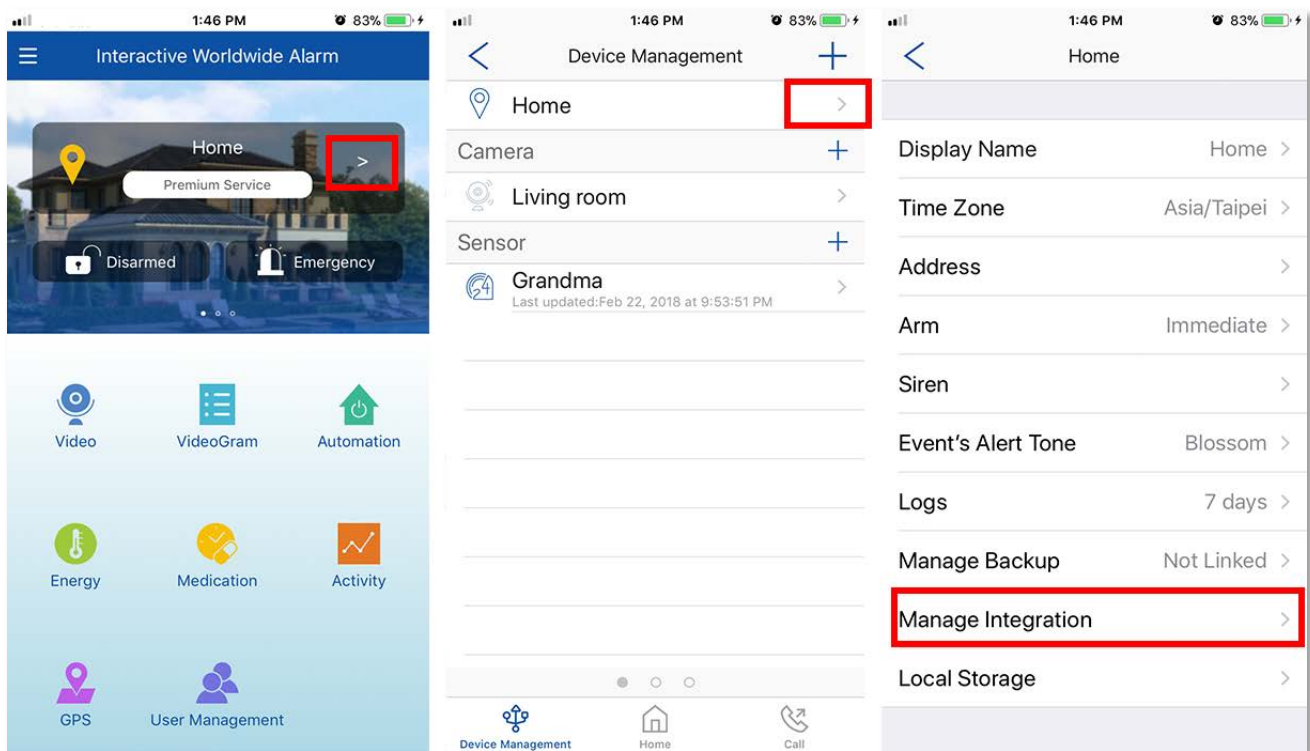

Create a Honeywell account at <https://www.mytotalconnectcomfort.com/portal> (browser) and follow the guided instructions to set up the thermostat.

Or you may download the Honeywell Total Connect Comfort app and do the same.

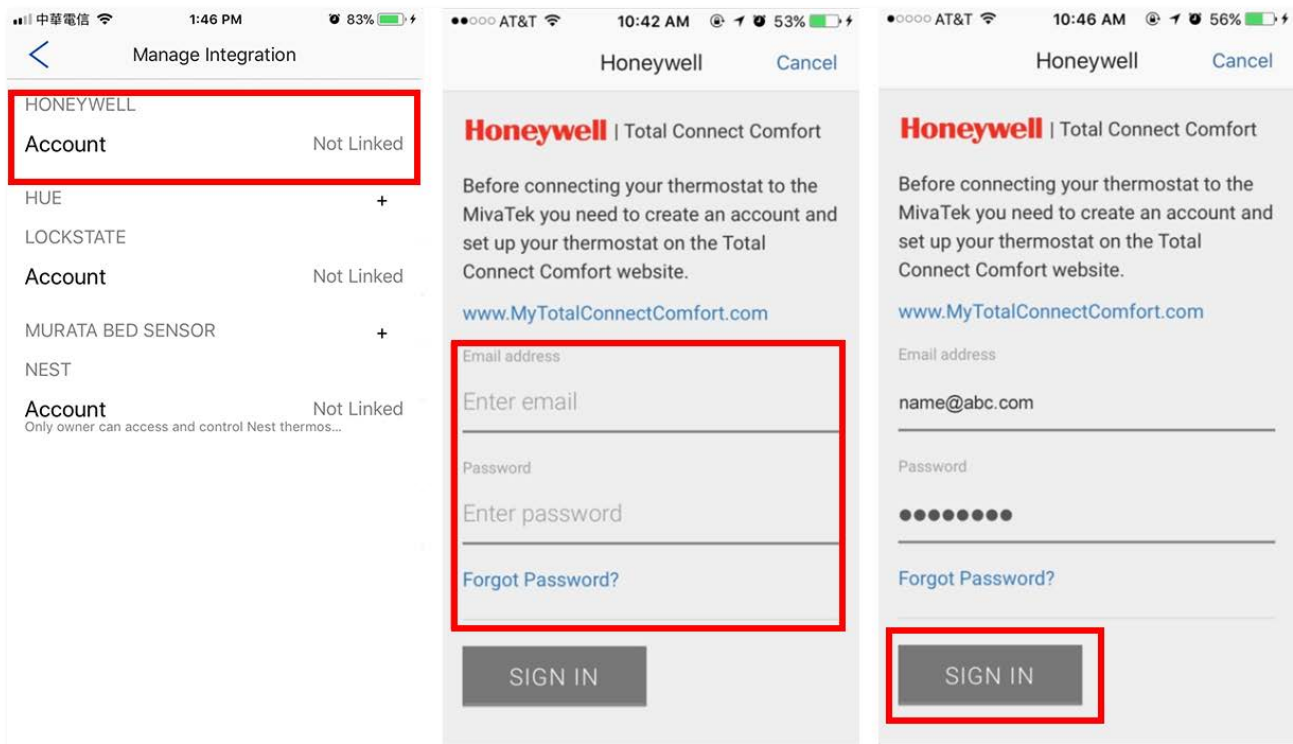

Have the account/password ready.

2. Link Honeywell thermostat to WWAlarm system.

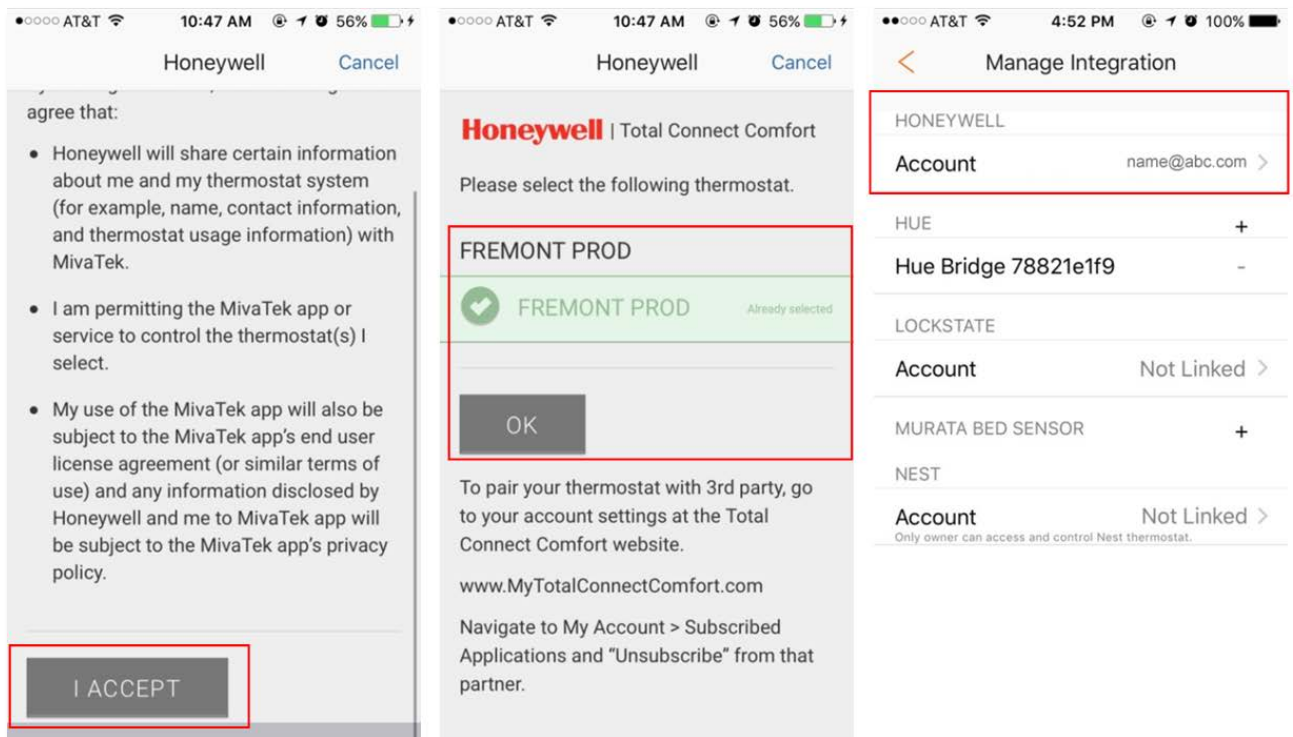

On WWAlarm app, navigate to "Device Management -> OPU/Shuttle settings -> Manage Integration".

On Manage Integration, tap on ">" on the Account row for HONEYWELL.
Enter the Honeywell account and password to sign in.

Accept Honeywell agreement and select the thermostat.
Honeywell account is now linked with WWAlarm.

3. View thermostat on WWAlarm.

On Home page, tap on "Energy". Select a thermostat to view and control remotely from WWAlarm.
